MySQL
- PROGRAMMING LANGUAGES:
Java, SQL, HTML, CSS, JavaScript

LANGUAGES

- English (Fluent)

PROFESSIONAL SUMMARY

MMotivated and detail-oriented B.Tech Computer Science student at JIET, Jodhpur, with a strong grasp of core programming concepts including Object-Oriented Programming (OOP), Data Structures, Algorithms, and Database Design. Proficient in Java and backend technologies like Spring Boot and MySQL, with hands-on experience in building scalable RESTful APIs. Skilled in front-end development using React.js, HTML, CSS, JavaScript, and Bootstrap to create responsive user interfaces. Adept at problem-solving and logical thinking, with a passion for building efficient, real-world applications using clean code practices and modern development tools such as IntelliJ IDEA, Eclipse, and VS Code.

EXPERIENCE

- TerraCIS Technologies Ltd.
Web-Designer (Intern)
 - Develop an optimized e-commerce platform to address common challenges in the online retail domain.

PROJECTS

- E-Commerce Website Development
Proposed Solution:
 - Seamless User Experience:** Designed an intuitive, visually appealing interface for effortless device navigation.
 - Efficient Backend Management:** Built a robust infrastructure to streamline inventory management, order processing, and customer relationships, enhancing operational productivity.
 - Secure Transaction Processing:** Integrated advanced security protocols and encryption techniques to protect user data and financial transactions, ensuring trust and platform reliability.

EDUCATION
